

### About the campaign

- **Location:** Malawi, Africa
- **Type of trees:** we are focusing mainly on guava and papaya fruit trees, and also some quick growing trees like senna siamea to provide firewood
- **Who benefits:** poor Malawian families benefit from the trees both for income generation and to provide both fruit and firewood for their own consumption
- **Working with:** our friends at Ripple Africa

### Focus: the seedlings get planted out

- The seedlings planted and grown within the tree nursery environments (which is what you, as our customer, are contributing towards) are now being planted out
- The planting coincides with the start of the rainy season, which runs from December to May
- This year the main focus will be on larger farms and farm cooperatives, each of which have planted 20-30,000 seedlings in nursery
